

## RVERS of Idaho

### January 2026 Newsletter

I apologize for this being a few days late. I hope each of you had a Merry Christmas. We have been extremely busy these past couple of weeks, I'm not sure if we mentioned that we are doing the work camper thing, and have been decorating and undecorating the ballroom at Sun Life in Mesa. We are putting in way more time than we anticipated, we were only supposed to work enough hours to pay for our space. We definitely didn't want to earn any extra money. If any of you ever want to try this, be sure to get them to be upfront with hours.

We are looking forward to seeing you at the summer rally at Glenns Ferry in June. It should be a great event, if Pat Wyatt asks for assistance with the event, please help out. She is planning to begin the meetings the second Monday of January at the Idaho Pizza at Fairview and Cole in Boise, meeting will start at noon. The Military Chapter is sponsoring a pre-camp the weekend prior to the rally at Three Island Crossing the 5<sup>th</sup> thru the 8<sup>th</sup> of June, if you would like to attend this event make reservations at Three Island Crossing. All are invited!

We do still need a chairperson for the fall rally at Trinity View Resort in September. This is really an easy event to do the planning for, and the previous chairpersons would be more than happy to help out.

My term as director is up in September, so we will need a replacement director then, so anyone interested in running for the position will need to be nominated in June. If we want our organization to continue someone will have to step up and fill the position, it really isn't that difficult to be the State Director. The time involved isn't that great, and if I could do it anyone can.

**RV TIPS:** Fabric softener sheets can be placed in drawers, closets or other enclosed areas to keep them smelling fresh. Be sure to wear your seat belts when traveling. When putting away cast iron pans use a coffee filter to help prevent rust.

**MONTHLY FUNNIES:** What is worse than a giraffe with a sore neck? A centipede with athlete's foot. What is cowhide mostly used for? Holding cows together. Laugh and the class laughs with you. But you get detention alone.

**HAPPY NEW YEAR!!!**

Take care, Ken and Monica ^
